SYNOPSIS

Despite progress in gender equity, women remain underrepresented in leadership positions globally. According to McKinsey's Women in the Workplace 2023 report, women hold only 28% of C-suite roles, with even lower representation for women of color. This brings to the forefront the significance of investing in developing women's leadership skills and equipping them with the necessary tools and skills for success.

This webinar explores actionable strategies to:

- nurture women's leadership potential
 - equipping organizations and individuals with tools to bridge the gap.
 - attendees will gain insights into mentorship, identifying and overcoming systemic challenges
 - personal empowerment frameworks that cultivate resilient female leaders.
-

SUB-THEMES

- Leadership Skills Development: Building Competence and Vision – **QS Mercy Iyortyer FNIQS, PPNIQS**
 - Personal Branding for Professional Development – **Dr. Njeri Wachira-Towey**
